See 1-Pentanamine [110-58-7]  
**Norleucinamide**  
Only peptides of norleucinamide are indexed at this heading. Norleucinamide itself is indexed at Hexanamide, 2-amino-  
**Norleucine** [616-06-8]  
The L-isomer has been assumed unless otherwise specified or implied in the original document and is indexed at L-Norleucine [327-57-1]. When synthetic norleucine has been clearly indicated in the original document, the racemate has been assumed and is indexed at this heading. These assumptions have also been made for their N-substituted derivs. and for their unsubstituted and N-substituted acid derivs. (e.g., esters, hydrazides)
